

Dear Students and Respected Parents.

Sub: Extended Lock down promulgated by the Central Government.

BCR/NOT/17/ Dated 14th April, 2020.

In the wake of COVID 19 that has caused serious health issues and nation - wide concerns , the College Authorities had to keep all academic activities - class room lecture sessions and laboratory classes in suspension till the 15th April, 2020.

We continued with the E- Learning mode of teaching / learning processes which has been well accepted by the students as their participation levels indicate.

However, the Central Government has extended the lock down till the 3rd May 2020; though no indication has yet been given as to the education sector.

In view of the present uncertainty, we are not in a position to satisfy student queries regarding commencement of classes and examinations.

We assure you that every effort shall be made to keep students/ parents informed of the development that shall be posted on the College Websites.

We would request you to visit College websites from time to time for information that the College shall disseminate in the interest of the Students.

We also assure you that E learning modes and Virtual Lab Sessions, wherever possible, shall continue.

Please stay home, stay safe and secure.

Thanking you

Yours sincerely,

(Tarun Bhattacharya),

General Secretary,

Dr.B.C.ROY GROUP OF INSTITUTIONS, DURGAPUR
